

9. BETWEEN UŚCIE SOLNE AND UJŚCIE JEZUICKIE

In Uście Solne the Wiślana Trasa Rowerowa (WTR, Vistula Cycle Route) joins VeloRaba, which joins VeloNatura/VeloMetropolis near the footbridge in Mikluszowice. Heading eastwards, towards Szczucin, you will get to Wietrzychowice, where the Wiślana Trasa Rowerowa joins VeloDunajec (route to Tarnów, Nowy Sącz and then on to Zakopane). You can also reach VeloDunajec via VeloNatura/VeloMetropolis, by going eastwards, towards Tarnów. The WTR section presented on the map is characterised by slight elevations and runs along roads which, for the most part, are separated from vehicle traffic.

Sights worth seeing:

» Thanks to the untamed riverbanks and the agricultural character of the area, the place is perfect for the white stork. The town of Niedzieliska is also known as 'the storks' village'.
 » Uście Solne used to be one of the main transit centres for salt cargo from Bochnia. From the mid-13th century, barrels of salt were barged on the Vistula River to Sandomierz, Płock, and even to Gdańsk.

Places for rest breaks on the route (Cyclist Service Points):

» WTR – Kopacze Wielkie, Ujście Jezuićkie
 » VeloNatura/VeloMetropolis – Bogucice

Bicycle trails:

» Bursztynowy Szlak Greenways (Greenways Amber Trail) - the trail crosses VeloMałopolska

routes several times (www.greenways.org.pl)
 » Sal de Bochezna – a link with the Salina Cracoviensis trail running to the north of Bochnia up to Uście Solne, along the Raba River on which salt used to be barged to the Wisła River.

Tips:

Make sure you have your own provisions, because the majority of the section runs at some distance from residential areas. VeloRaba has a gravel surface on the section between Uście Solne and Mikluszowice.

VeloMałopolska is a network of bicycle routes of European standards, which run through whole the Małopolska region. One of them is the **Vistula Cycle Route** (WTR), which is a national route, and at the same time, it is connected to the international EuroVelo4 routes (VeloMetropolis is located within the terrain of the region), as well as the EuroVelo11 (VeloNatura). A characteristic feature of the WTR Vistula Route is its slight gradient and a distance from urban areas. Alongside all the VeloMałopolska routes there are **Cyclist Service Points** (Cyclist Service Points) with such amenities

as for instance maps of the surroundings, sheds where it is possible to take shelter in case of rain, service tools, grilling equipment, or toilets. **Bicycle Friendly Places** (MPR) complement the offer of the region within the range of bicycle tourism. These are accommodation facilities, gastronomic places, tourist attractions, as well as other facilities adjusted to cyclists' needs. These are places where it is possible to store a bicycle and luggage safely, to avail oneself of tools for basic repairs, as well as to obtain information useful for planning the further journey.
